## **SUMMARY**

Computer Science graduate from Visayas State University with hands-on experience in fullstack development, UI/UX design, and web-based systems using JavaScript, Vue.js, Laravel, and React. Passionate about building user-centered applications and clean interfaces. Strong team player with solid leadership and communication skills, seeking a role to apply technical expertise.

### **SKILLS**

JavaScript, Vue.js, Laravel, MySQL, Python, HTML/CSS, Tailwind CSS, RESTful APIs, PHP, Node.js, React, Express, Bootstrap, Figma, Git, GitHub, Photoshop

#### **EDUCATION**

Visayas State University Main Campus	Sep 2021 - Jul 2025
Bachelor of Science in Computer Science	Baybay, Leyte, PH
Ormoc City Senior High School	Aug 2015 - Aug 2019
Science, Technology, Engineering, and Mathematics Strand	Ormoc, Leyte, PH

#### **EXPERIENCE**

#### Intern Full Stack Developer

Jun 2024 - Aug 2024

Wela School Systems

- Enabled dynamic certificate generation by creating a **Frappe Print Format** with editable fields using **JavaScript** and **HTML/CSS**.
- Improved reporting efficiency for MV Gallego Colleges and Chime Learning School by building custom script reports using **Python** and **Jinja** templates.
- Streamlined academic performance tracking through report card formats, leveraging **Frappe's templating engine** and client-side scripting using **JavaScript**.
- Adapted core systems by customizing **Frappe DocTypes** and integrating server-side logic with **Python**, ensuring compatibility with unique school workflows and data.
- Accelerated data access and system responsiveness through optimized **Python** scripts within the **Frappe Framework** for seamless querying.
- Maintained code integrity and streamlined collaboration using **Git** and **GitHub** for version control and team-based deployment.
- Empowered school staff with clear, concise technical documentation using **Markdown** and **HTML**, reducing training overhead and improving feature.

#### **PROJECTS**

Pageant Scoring System 2 - Built a custom scoring platform for Visayas State University
pageants, achieving a 4.55/5 system evaluation, using JavaScript, Vue.js and Laravel.
File Management Application 🖸 - Created a mini file management website application that
handles single file upload with React, Multer, Express.js, and Tailwind CSS.
Person Search System 2 - Built a frontend web app with live JSON search using jQuery, HTML,
CSS, and JavaScript.

Revenue and Attendance Management System - Developed a polished mockup to improve the UI/UX of Visayas State University's previous Attendance Management System, designed with Figma and Photoshop.
