SUMMARY

Computer Science graduate skilled in **Python**, **Vue.js**, **React**, and **Laravel**. Dedicated to writing well-architected code and solving complex problems. A proactive collaborator ready to drive results in a dynamic engineering environment.

ACCOMPLISHMENTS

- Outstanding CS Trainee - Fullstack Developer (Wela School Systems), 2024
- Dean and Chairman Lister 2021

EDUCATION

Visayas State University Main Campus   **Sep 2021 - Jul 2025**
Bachelor of Science in Computer Science   Baybay, Leyte, PH

Ormoc City Senior High School   **Aug 2019 - Aug 2021**
Science, Technology, Engineering, and Mathematics Strand   Ormoc, Leyte, PH

SKILLS

Python, Vue.js, PHP/Laravel, Java, HTML/CSS, JavaScript, React, Tailwind, Node, MySQL, Git, GitHub, Figma

EXPERIENCE

Intern Full Stack Developer   **Jun 2024 - Aug 2024**
Wela School Systems   **Remote**

- Designed and developed core system customizations for the **Frappe/ERPNext** platform, using **Python** to build server-side logic, customize DocTypes, and create custom script reports for unique academic workflows.
- Ensured system performance by optimizing **Python** scripts for faster data access, while applying due diligence and best practices through rigorous **Git** version control and clear technical documentation.

PROJECTS

Pageant Scoring System (PHP/Laravel and Vue.js) ⬀
- Architected a secure and scalable backend using **PHP/Laravel**, exposing all core logic through a **RESTful API**.
- Implemented a normalized relational database in **MySQL** and **Laragon** to ensure data integrity and efficient, persistent score storage.
- Translated the new workflow into a responsive and intuitive user interface to facilitate real-time data entry and visualization.

Transactiq: Point-of-Sales System (Quality Assurance) ⬀
- Executed manual rigorous front-end testing to validate the user interface against design mockups and identify visual bugs or usability issues.

Inventory and Delivery System (C#) ⬀
- Architected the front-end user interface and experience (UI/UX) for the Windows desktop client.
